

Insurance for FRA Races

EVFC races licensed by the Fell Runners Association (FRA) benefit from the insurance that UK Athletics have put in place for athletics events. Clubs that are affiliated to England Athletics are covered for their own club events, but UK Athletics have now made it clear that for cover to apply, a licence is required for all events that:

- Have 150 or more participants, or
- Charge for entry, or
- Have runners not members of the organising club taking part

More complete information about the insurance can be found at www.uka.org.uk/governance/insurance

A copy of the current insurer's letter confirming that UKA cover is in place can be found on the UKA website and on the FRA website 'Documents' pages, or on request from the FRA Secretary.

Evidence that a race is licensed by the FRA and therefore benefits from this insurance can be found in the individual race listings on the FRA website. Race organisers should also display a copy of their race licence at their race.
